This document provides a comprehensive and detailed overview of the installation process for **.NET Desktop Runtime 10** and **ArcGIS PRO**.

Carefully follow the instructions provided.

Contents

Requirements 2
.NET Desktop Runtime Installation 3
Downloading ArcGIS PRO 4
Installing ArcGIS PRO 5

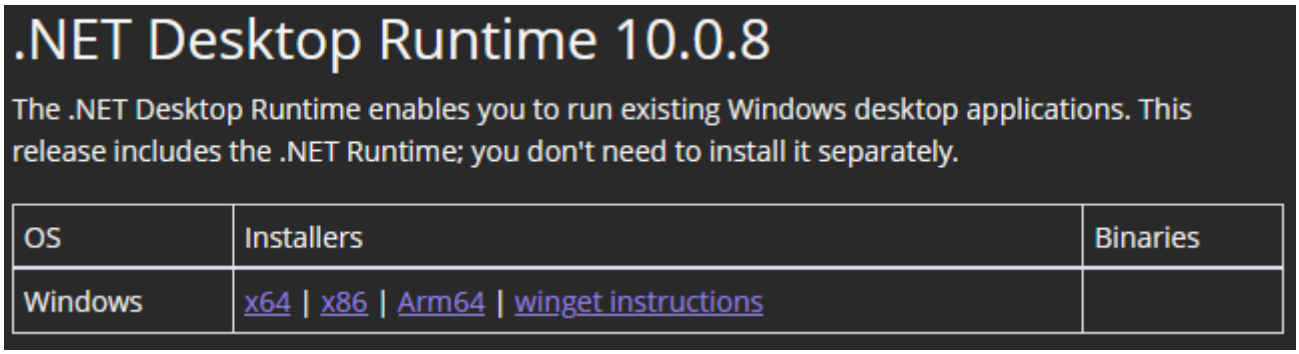

Requirements

1. The operating system must be Windows 10 or Windows 11, 64-bit edition.
2. If you have macOS, you should first install UTM/Parallels.

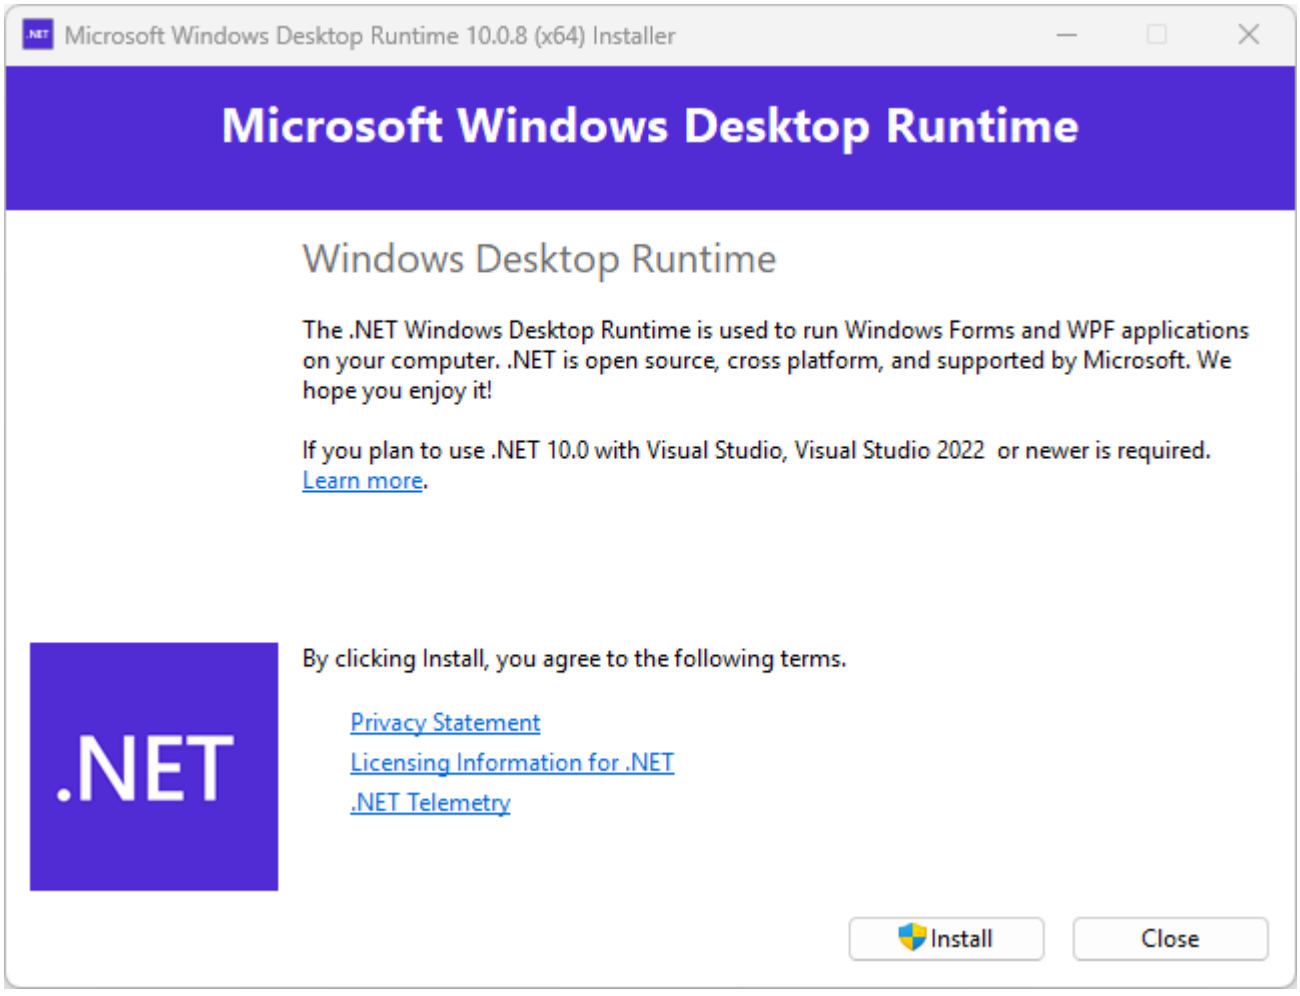

.NET Desktop Runtime Installation

Before downloading ArcGIS PRO, please install **.NET Desktop Runtime 10** you can download it through the following link:

https://dotnet.microsoft.com/en-us/download/dotnet/10.0

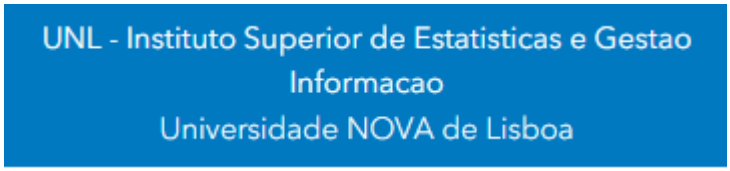

Double click on the downloaded file, click **Install** and then allow the installation

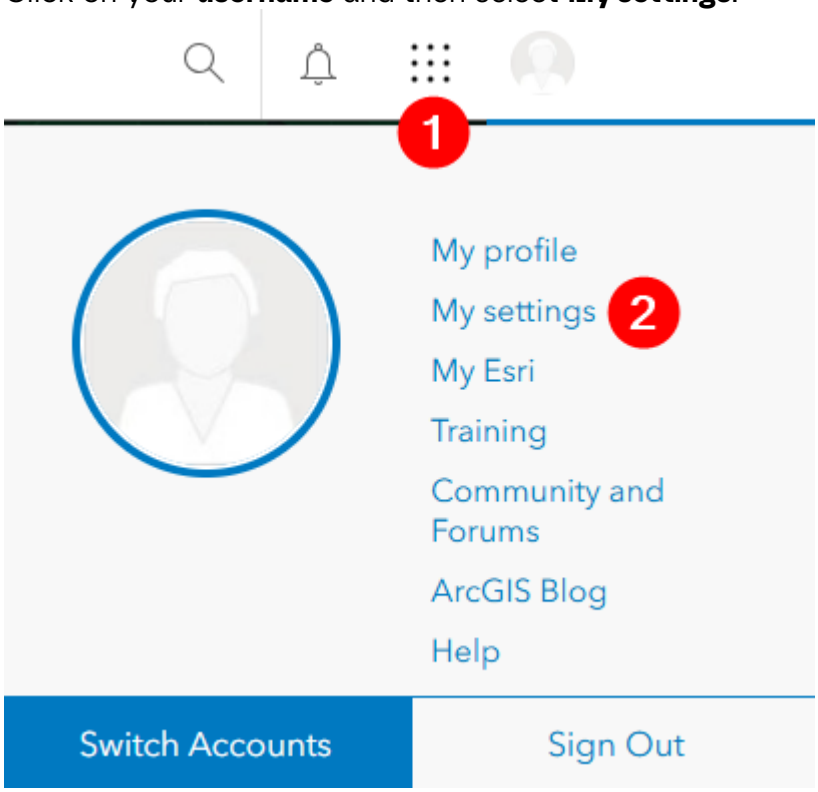

Downloading ArcGIS PRO

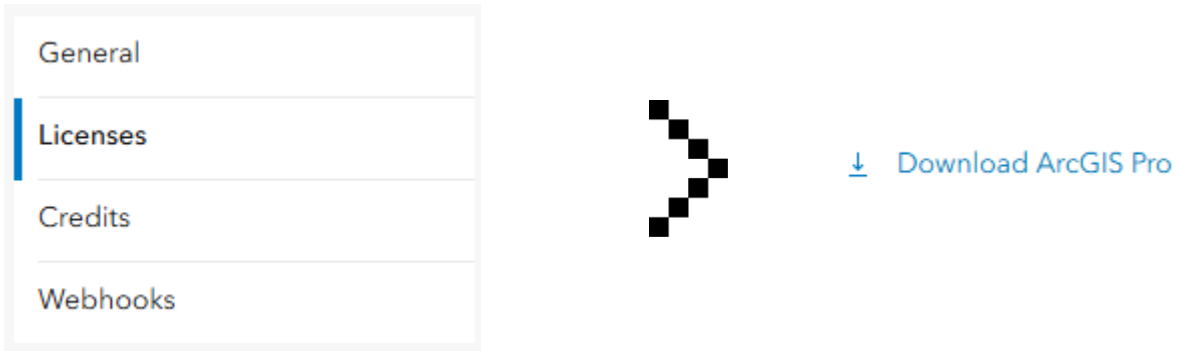

Access to https://novagis.maps.arcgis.com , click on this option and then login with your student credentials.

Click on your **username** and then select **My settings**.

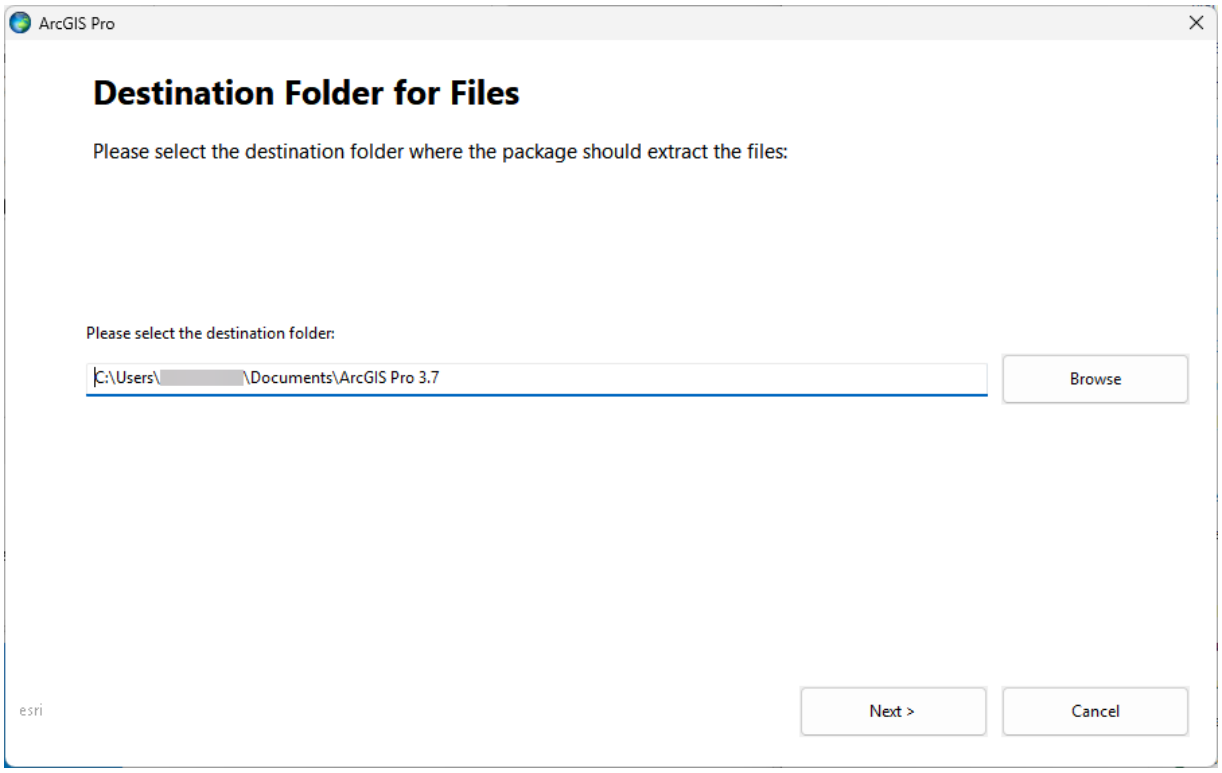

On the left side menu, click on **Licenses** and at the bottom of the page click **Download ArcGIS PRO**.

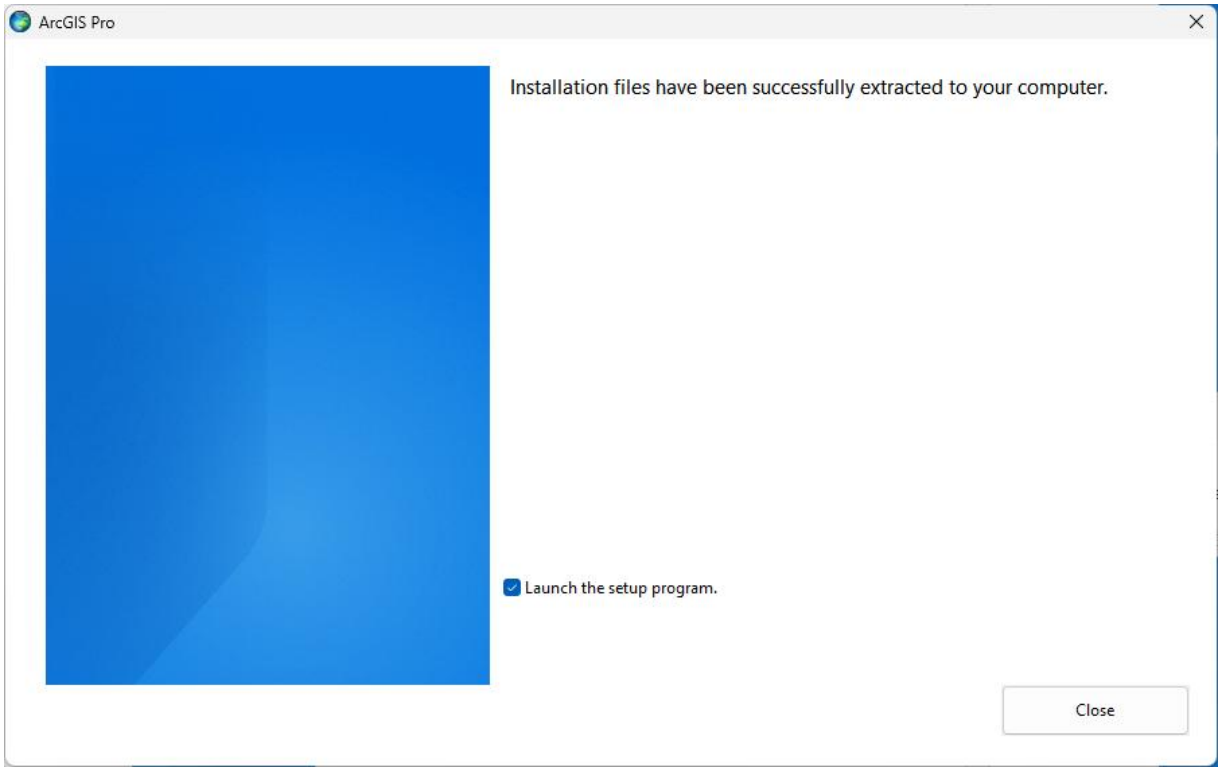

Installing ArcGIS PRO

Accept the default extraction folder or click **Browse** to choose another location, then click **Next**.

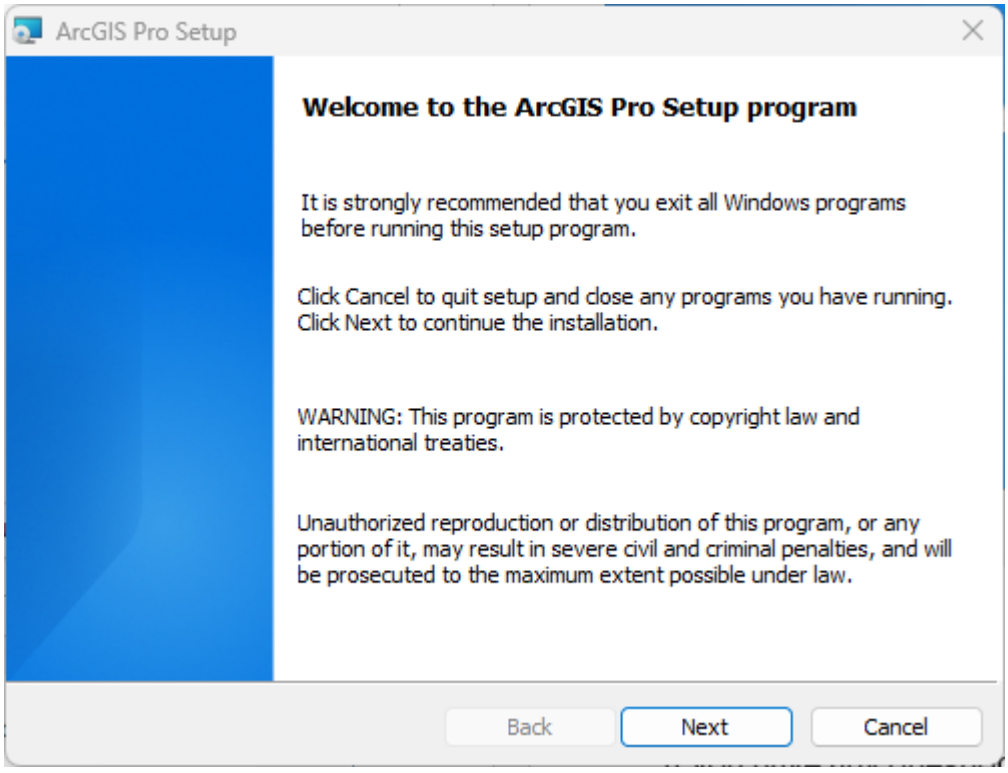

Once the files are extracted, leave **Launch the setup program** selected and click **Close**.

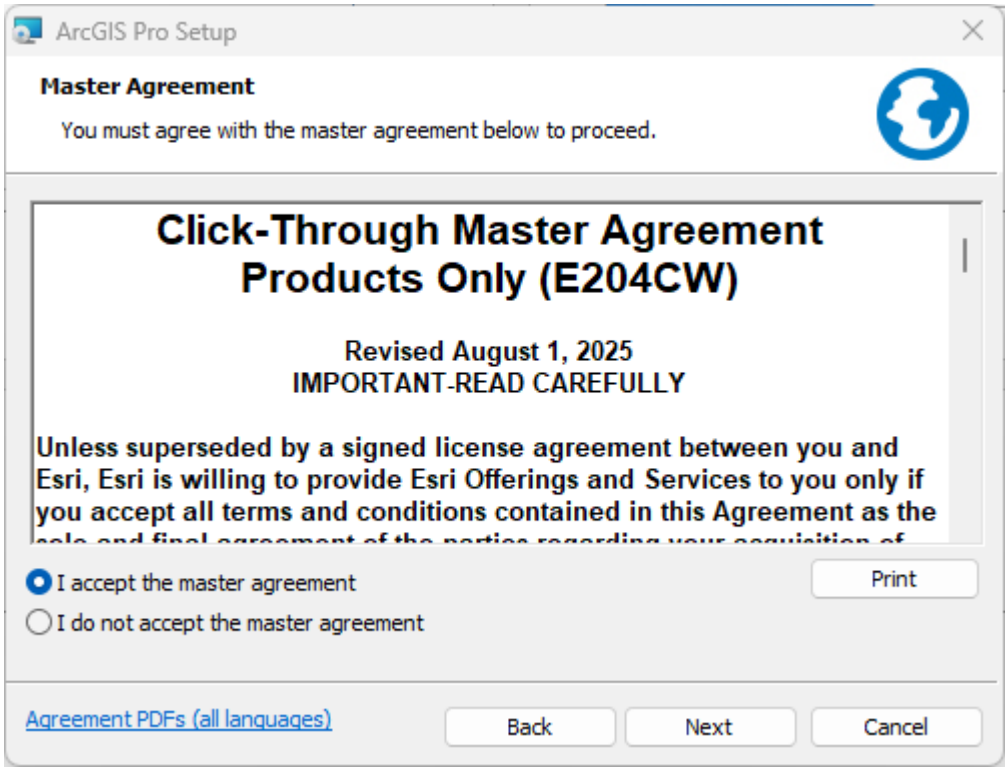

On the **ArcGIS Pro Setup** screen, click **Next**.

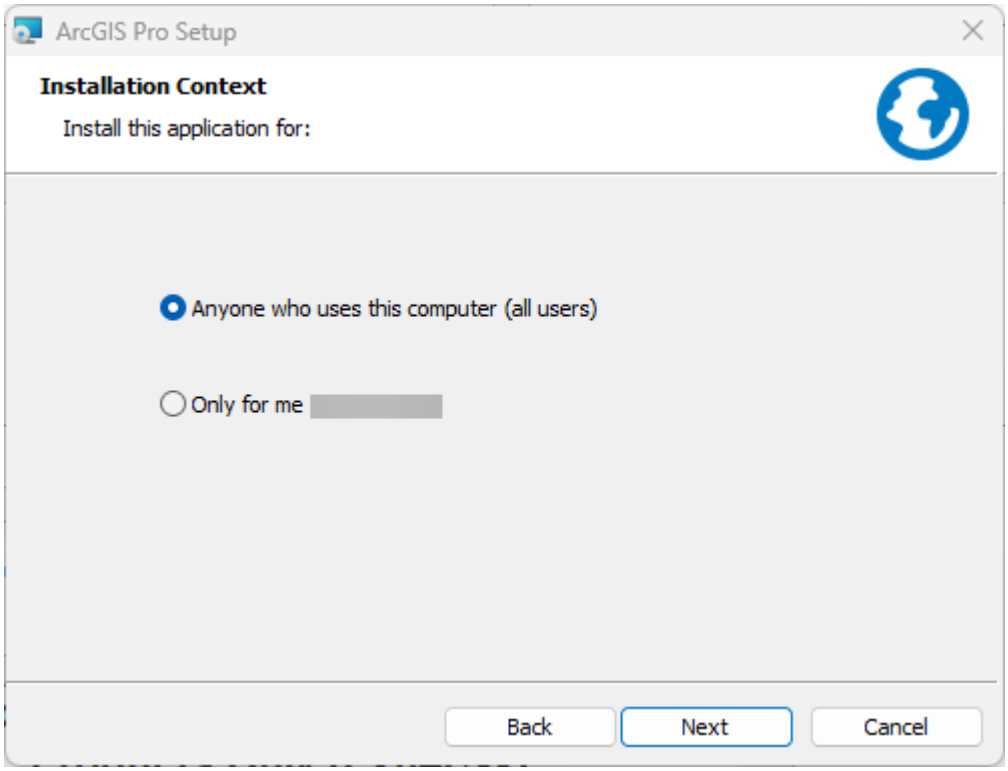

On the **Welcome to the ArcGIS Pro Setup** screen, review the information and click **Next**.

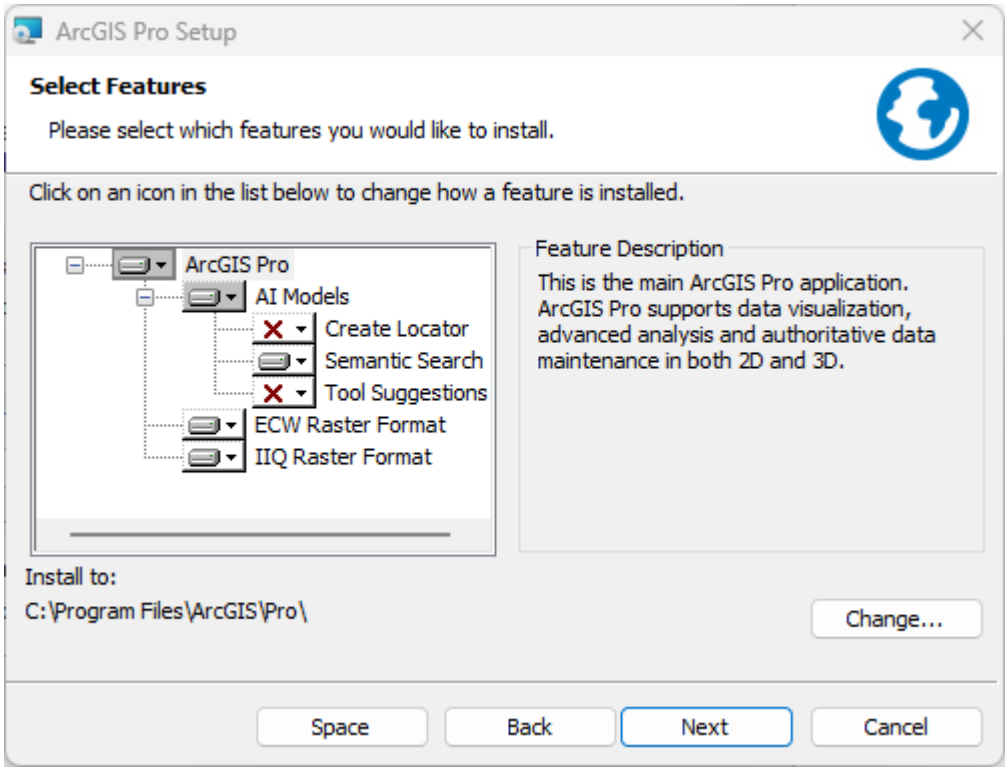

Review the license agreement, accept the terms, and click **Next**.

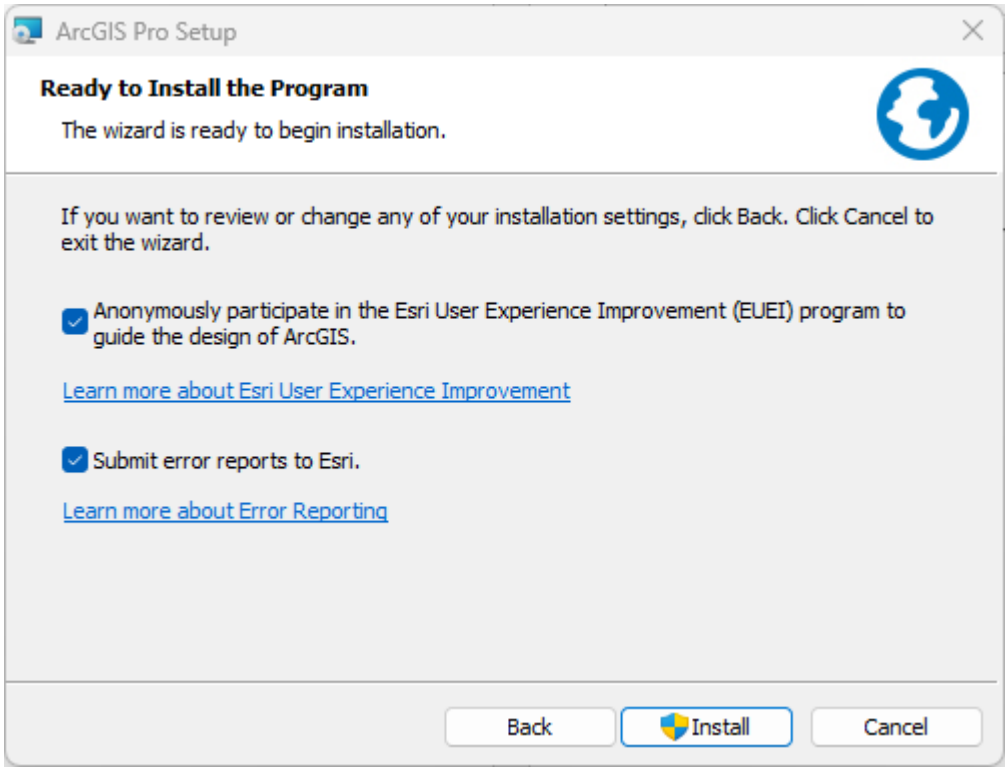

Choose the installation type **Anyone who uses this computer** (recommended) or **Only for me**, then click **Next**.

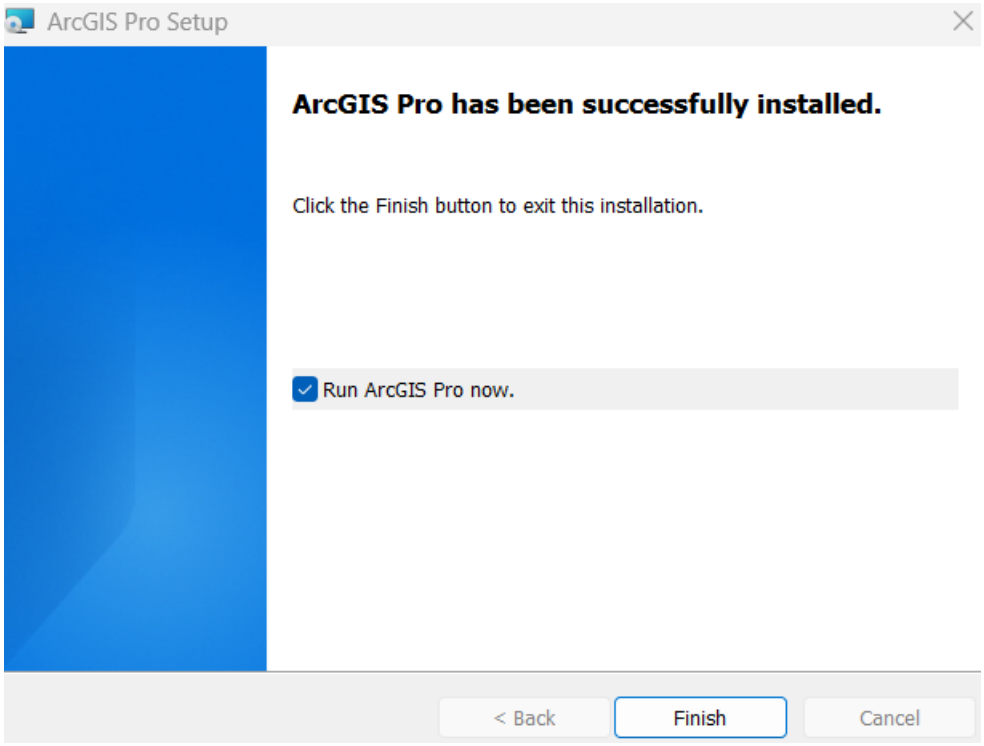

Select the features you want to install (or keep the default settings), then click **Next**.

On the **Ready to Install** screen, review the options and optionally adjust the participation in the Esri feedback and error reporting programs, then click **Install**.

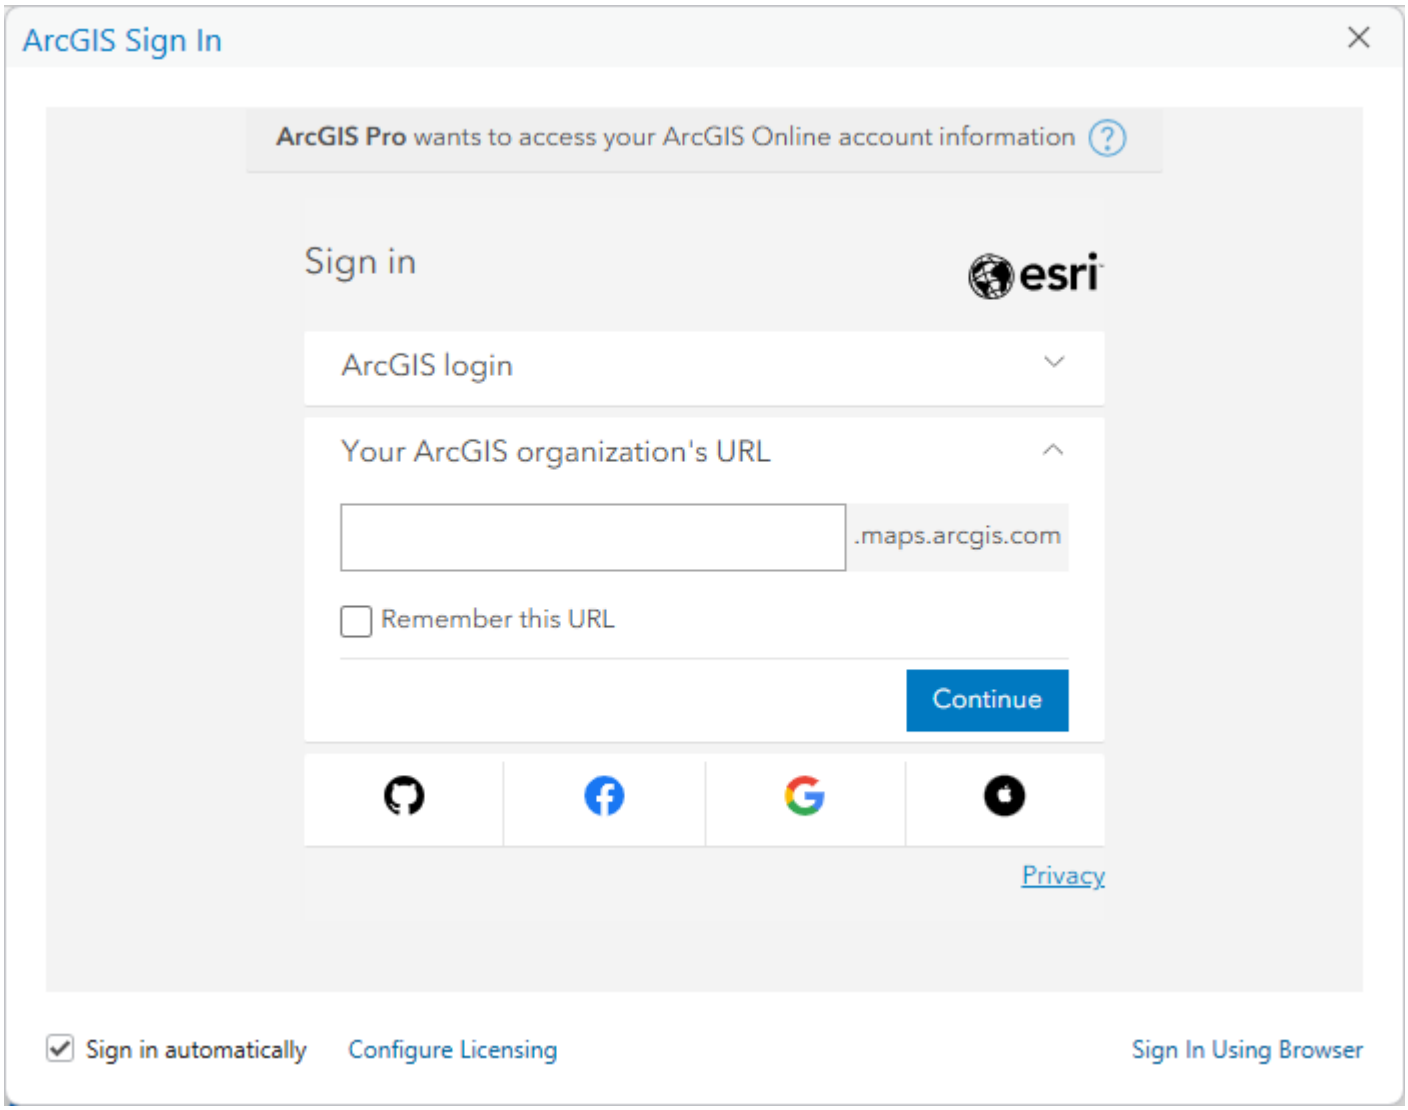

When the installation is complete, the option to run ArcGIS Pro is selected by default; uncheck it if needed, then click **Finish**.

Wait for ArcGIS Pro to start.

Select **Your ArcGIS organization's URL** type **novagis**, click on **Remember this URL**, click **Continue** and sign in with your institutional credentials.

If you have any questions or problems during the installation, please open a support ticket.
